Objective

A dedicated and detail-oriented individual looking for an entry-level position at a well-reputed organization to gain experience, exposure and expand my knowledge.

Projects

- **Online Bus Ticket Booking System**

A Online Bus Ticketing System is an console-based java application designed to provide customers with a personalized easy-to-utilize user experience for booking and purchasing tickets online. It stores customers' personal data records, scheduled routes, frequent trips, drop points, and other information.

- **Smart Plant Monitoring system**

The Project is IoT-based Smart Plant Monitoring System is designed to monitor and maintain the growth and health of plants. The system works by collecting data from various sensors and then sending that data to a mobile application through the internet.
